

Enhance your image and customer interaction with the sleek PAR EverServ® 6000 LP POS terminal.

The EverServ 6000 LP (Low Profile) provides all the durability, flexibility, scalability and performance ParTech, Inc. is known for in an innovative new design. The sleek, contemporary design of the 6000 LP makes it the perfect choice for image conscious operators that seek the ultimate in customer friendly service environments. It is engineered to simplify service, and its energy-saving features and rugged design contribute to a low total cost of ownership and a long product lifespan.

---

#### Sleek, Contemporary Profile

---

The 6000 LP POS terminal's clean, unobtrusive design eliminates traditional bulky hardware between the server and customers and maximizes social interaction for improved customer service. The sleek design complements contemporary environments to enhance your company's image.

#### Durable By Design

---

The 6000 LP leverages the latest industrial design with an ultra-durable, shock and spill resistant casing that can withstand the toughest environments. Cabling is minimized and tucked away to reduce clutter and accidental failures. The 6000 LP's innovative architecture keeps the unit cooler during operation, increasing reliability. PAR brings an in-depth understanding of real-world technology deployments, developed from decades of experience as a leading vendor, to provide a product that will continue to perform well throughout a long product lifespan.

#### High Performance with Low Power Consumption

---

The 6000 LP employs the latest Microsoft® and Intel® technologies to provide faster processing that's capable of handling even the most complex software applications. The terminal's advanced energy saving features and auto-standby mode dramatically reduce overall power consumption. The 6000 LP lowers energy costs while raising performance levels for a lower total cost of ownership.

#### Common Computing Platform

---

The 6000 LP POS terminal leverages the same computing platform as the other 6000 models. This enables you to deploy multiple 6000 configurations while simplifying your staff training, IT operations and support; which lowers your total costs.

Solutions Beyond the Expected.

## Specifications

CPU	Intel Celeron M 1.73GHz (standard) Intel Core 2 Duo 2.16GHz (optional)	
Memory	DDR2 SDRAM: (2) slots, 512MB up to 4GB <sup>1</sup>	
Hard Disk	2.5" SATA, 80GB <sup>2</sup>	
LCD	15" High bright touch screen	
Touch Screen	Capacitive	
PC Bios	AMI Bios version 8.0 and SM Bios 2.3	
LAN	10/100/1000 Mbit Ethernet	
Power Supply	180W peak, 43W typical, 4W standby mode	
Ports and expansions	1 x Compact flash slot 1 x SD slot 1 x Mini-PCI 2 x Mini-PCle 1 x Audio line in/out/mic jacks 2 x Cash drawer RJ-11 ports 2 x Serial RJ-45 ports (can be powered) 1 x RJ-45 Ethernet LAN 2 x USB ports version 2.0 1 x P/S 2 keyboard/mouse 1 x DC power output jack +12V 1 x Parallel port 1 x DVI-I graphic display port	
Options	Integrated customer display: 4 line x 20 character VFD International character support VFD Magnetic Stripe Reader – 2 track (PAR interface) or 3 track (USB or PS/2 interface) options Mini-PCle wireless	
Product Certifications	cUL UL FCC Class A RoHS WEEE CE	CCC BSMI C-Tick IRAM KCC GOST-R
Dimensions (HxWxD)	5.15 x 14.75 x 16.75 in (13.1 x 37.5 x 42.5 cm)	
Weight	19 lb (8.6 kg)	

<sup>1</sup> Memory above 3GB is only available on 64 bit operating systems.

<sup>2</sup> GB means 1 billion bytes; actual capacity varies with preloaded material and operating environment will be less.

Integrated  
2-3 Track MSR

15" High Bright  
Touch Screen

Optional 4x20  
Customer VFD

2 Setting Adjustable  
Height

ParTech, Inc. (PAR), a wholly owned subsidiary of PAR Technology Corporation, has built its more than three decades of success around delivering advanced point-of-sale and enterprise back-office solutions for restaurant operators worldwide. PAR has provided hardware, software and services to the world's largest restaurant chains and their franchisees for more than 30 years. The Company's extensive offering is backed by PAR's global service network and its Boundless Hospitality™ vision for enhancing restaurant operations in a new era of dining out. The Boundless Hospitality vision drives the development of game-changing solutions, and is supported by a partner ecosystem that accelerates innovation more quickly than possible for any single company working independently. The Company has more than 50,000 installations in 110 countries worldwide. In addition to solutions for the restaurant industry, PAR products are improving the customer experience in retail, including the cruise, hotel, casino and entertainment industries. For more information visit the Company's Web site at [www.partech.com](http://www.partech.com).
